e-Cenit Systems Received A Prestigious Award – The Deloitte Fast 500 Asia 2007

Petaling Jaya, Malaysia, 19 December 2007 – Deloitte Technology has awarded e-Cenit Systems Sdn Bhd the recognition as one of the 500 fastest growing technology companies in Asia Pacific. The prestigious award is one of the most comprehensive ranking given to the fastest-growing technology companies in Asia Pacific.

The Deloitte Fast 500 Asia 2007 award saw e-Cenit Systems, a company with Multimedia Super Corridor (MSC) status which specializes in the research and development of storage and information management solutions, at number 141 ranking based on its soaring revenue growth of 355.15 percent over three years, from RM1.15million in the year 2004 to RM5.26million in 2006.

The average revenue growth rate across all the 500 fastest-growing technology companies in Asia Pacific reached 540 percent over the past three years, the highest point since the rankings were launched in 2002.

“At the National level, e-Cenit Systems leads the rank among the six Malaysian local companies as having the best sales in regard to software business type,” said the e-Cenit CEO, Eugene Loke.

Furthermore according to Eugene Loke this achievement is amazing given that e-Cenit is a young company which started in 2004, and within the span of three years it has proven itself as one of the fastest technology growing companies in Asia Pacific.

“Kudos to e-Cenit Systems’ team consisting of 13 qualified and diversified IT staff who are all Malaysians,” added Eugene Loke.

“Attracting enough customers to attain such fast growth over three years makes a strong statement about the quality of a company’s product and its leadership,” said Ian Thatcher, partner in charge of Deloitte’s Technology Fast 500 Asia Pacific program. “e-Cenit Systems has shown the right stuff for growth.”

e-Cenit Systems emphasizes the value of research and development in meeting the needs of public and private sectors for competitive storage and information management solutions. Today, its research and development expertise has seen its expansion in producing e-Cenit StorageController™ (storage lifecycle management software) and e-Cenit DocumentController (physical document lifecycle management software) which cater to the demand of various industries locally and abroad.

The rapid growth of e-Cenit Systems is attributed to its state-of-the-art product features. All the e-Cenit Systems solutions are web based built on Java technology, making their functions convenient for centralized management and monitoring processes.

Besides that, e-Cenit Systems is at the forefront of breakthrough technologies in radio frequency identification (RFID), delivering to business dramatically higher levels of performance in automatic identification, tracking and management of documents and data.

In addition to their multiplatform feature, the e-Cenit Systems' products are also equipped with full information lifecycle management capability which is the key to information management improvement.

e-Cenit Systems has always endeavor to develop solutions that meet the need of various sectors such as Financial Services, Government, Telecommunications and Conglomerates for effective and efficient management of information.

Technology Fast 500 Asia Pacific selection and qualifications

The Technology Fast 500 list is compiled from Deloitte's Technology Fast 50 Asia Pacific programs, nominations submitted directly to the Technology Fast 500, and public company database research. To qualify for the Technology Fast 500, entrants must have had first year operating revenues of at least US\$50,000.

Entrants must also be public or private companies headquartered in Asia Pacific and must be a "technology company," defined as a company that owns proprietary technology that contributes to a significant portion of the company's operating revenues; Manufactures a technology related product, or devotes a significant proportion of revenues to the research and development of technology.

About Deloitte

Deloitte refers to one or more of Deloitte Touche Tohmatsu, a Swiss Verein, its member firms, and their respective subsidiaries and affiliates. Deloitte Touche Tohmatsu is an organization of member firms around the world devoted to excellence in providing professional services and advice, focused on client service through a global strategy executed locally in over 140 countries. With access to the deep intellectual capital of approximately 150,000 people worldwide, Deloitte delivers services in four professional areas—audit, tax, consulting, and financial advisory services—and serves more than 80 percent of the world’s largest companies, as well as large national enterprises, public institutions, locally important clients, and successful, fast-growing global companies. Services are not provided by the Deloitte Touche Tohmatsu Verein, and, for regulatory and other reasons, certain member firms do not provide services in all four professional areas.

As a Swiss Verein (association), neither Deloitte Touche Tohmatsu nor any of its member firms has any liability for each other’s acts or omissions. Each of the member firms is a separate and independent legal entity operating under the names “Deloitte,” “Deloitte & Touche,” “Deloitte Touche Tohmatsu,” or other related names.
